# GKIT XML File instructions

This document explains how the GKIT XML file should be edited.

- Step1: Save the GKIT to your local drive.
- Step2: After saving the GKIT file, right click on the file and go to properties.
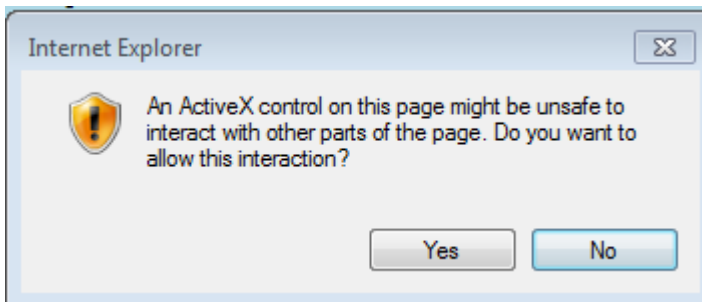

- Step 3: Click on unblock option at the lower right corner. Uncheck read only option if it is checked.

- Step4: Click Apply and OK, close this dialog box.
- Step5: Open the GKIT file and pop up will come to enable ActiveX control.

- Click on allow blocked content.

- Click Yes.

- **Step5:** If user is getting below error.

Then do below settings in your Internet Browser.

- Go to Tools-->Internet Options

- Select security tab

- Ensure that "Active X Control" is enabled. If not enable please take the help of Local IT help desk.

- Once this is completed, clear the browser cookies and cache. Close all your browser sessions. Reopen the IE to launch your site.
- Step6: After doing these settings save your changes and save GKIT. Click on file save, following message will appear.
